It's About Time!
An Independent
Commissioner!

Jefferson Co. Commissioner, District 2

I've knocked on thousands of your doors, but working full time (plus running a nonprofit) doesn't leave much time for doorbelling. **If my Elect Sandy! card was in your door, I was there.** Unlike my opponent, I refuse to have others go door-to-door, leaving cards as if I was there. If it's not me knocking, I might as well have the nice postal workers deliver my cards.

My team is made up of hard-working men and women, just like you. Times are tough for all of us these days...and they need to be focusing on their businesses and families, not hand-delivering rack cards.
